

Symphony Casegoods Furniture

# Symphony

For classic American style that hearkens back to a time when men were patriots and furniture was built to last for generations, look no further than Symphony. Book-matched cherry veneers and hardwood edge banding set these pieces apart. A complete line of executive furniture, Symphony includes coordinating occasional tables, conference tables, and guest seating.

# Symphony

Symphony desks mark the intersection of modern sensibilities and traditional style.

In addition to double pedestal desks, L- and U-shaped workstations with optional credenza uppers are available. Wire management is accomplished discreetly in these pieces by cable grommets on the sides of the desks and desk returns.

One of the most modern features of Symphony is designed to go unnoticed.

The modular nature of the line allows much of it to be customized. Credenza units in multiple widths and configurations can be paired with open-shelf or enclosed uppers to create custom storage pieces. Even monumental library wall units can be enhanced with wardrobes and closed storage.

# Symphony

From the solid wood construction, to the rich walnut, cherry, and mahogany finishes, the craftsmanship of Symphony shines through every detail. Brass hardware and traditional trim details elevate pedestal and lateral files to fine furniture and allow them to blend seamlessly with desks and upper cabinets. Central locking mechanisms and full-extension ball bearing suspensions ensure flawless operation for years to come.
